Barry A. Diaz

Full Stack Software Developer

(+63) 935 986 9535 | barryxdiaz@gmail.com | Noveleta, Cavite

PROFESSIONAL SUMMARY

Full Stack Software Developer experienced in building and maintaining web applications using Vue.js, React.js, Node.js, and databases. Skilled in system optimization, and translating business requirements into reliable solutions that improve workflow efficiency and user productivity, with a Computer Science degree earned Cum Laude.

WORK EXPERIENCE

Full Stack Software Developer | HRD Singapore Pte. Ltd., General Trias, Cavite **December 2023 – July 2026**

- Developed and maintained internal web applications using Vue.js, Node.js, Laravel, and database technologies, streamlining business workflows and reducing manual processes while improving productivity across multiple departments.
- Translated business and user requirements into functional system features and application components, delivering solutions aligned with operational needs and reducing process errors for internal users.
- Optimized front-end and back-end functionality by improving application logic, data processing, and system components, enhancing application performance, reliability, and data accuracy for day-to-day business operations.

Technical Support Intern | City Government of Cavite, Cavite City, Cavite **July 2022 – September 2022**

- Resolved hardware, software, and printer-related issues for government personnel, minimizing technical disruptions and supporting continuous day-to-day office operations.
- Maintained and organized resident records and digital data, improving data accuracy and accessibility while making information easier for staff to retrieve and manage.
- Developed basic Python scripts to support data processing and assisted with IT operations, reducing repetitive manual work and improving efficiency in routine technical tasks.

NOTABLE PROJECTS

HRD Production File Management System

Technologies: HTML, CSS, JavaScript, Vue.js, Vue 3, Node.js, & CouchDB

- Designed and developed a full-stack file management application using Vue 3 and Node.js, modernizing prefabrication workflows and improving the efficiency of internal file exchange processes.
- Engineered backend services for secure storage and retrieval of house plans using Node.js and CouchDB, enabling faster access to production files and improving data management reliability.
- Built a responsive Vue 3 user interface for file uploads and management, simplifying user interactions and improving usability for internal teams.

Undergraduate Thesis: Management Information System for Barangay Salcedo 1

Technologies: HTML, CSS, JavaScript, PHP, & MySQL (phpMyAdmin)

- Developed a centralized management information system using PHP and MySQL, digitizing manual record-keeping processes and reducing the time required to manage resident information.
- Designed a structured MySQL database for resident records and certificate-related information, improving data accuracy, organization, and retrieval efficiency.
- Implemented a responsive web interface for certificate processing and record management, streamlining administrative workflows and improving service delivery for barangay personnel.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, PHP, HTML5, CSS3, C#, Visual Basic, C++, Python
- **Frameworks & Libraries:** Vue.js, React.js, Vuetify, Node.js, Laravel, jQuery
- **Databases:** MySQL, CouchDB, MongoDB, SQL
- **Version Control & Collaboration:** Git, GitHub, GitLab
- **Core Competencies:** Data Processing, System Optimization, Requirements Analysis, Application Troubleshooting

EDUCATION

Bachelor of Science in Computer Science (Cum Laude) **Graduated: 2023**

Cavite State University - Cavite City Campus | Cavite City, Cavite

CERTIFICATES & HONORS

Certificate of Eligibility for Honor Graduate — Civil Service Commission Regional Office IV

Certificate of Academic Distinction (Cum Laude) — Cavite State University – Cavite City Campus
